

# **Buffalo State College Weigel Health Center**

## ***Mission Statement***

Help our multicultural student population succeed by providing high quality medical care, health education, and personal development opportunities.

## ***Vision***

Students will make healthy choices that facilitate their ability to graduate, achieve personal goals, and contribute to the larger community.

## ***Values***

Quality

Customer Satisfaction

Professional and Caring Approach

Team Spirit

Community Service

## ***Philosophy***

To provide services that are multiculturally sensitive, individually respectful and caring, professionally competent and knowledgeable, and institutionally responsive and responsible. Practitioners, nurses, secretaries, educators, and other staff are advocates for patient care, health, and student development. We are committed to creating an environment where students feel comfortable asking questions, stating needs, expressing concerns or problems, and offering positive or negative feedback to any person involved in the care or administrative processes connected with their use of the Weigel Health Center. It is the responsibility of every staff member to address student concerns and other issues in a timely manner and offer the advocate service to direct access to the Director of the Weigel Health Center
